

That's me

Text/Musik: Bodo Schaffrath

If you'll go down to the river oh baby think about me.

If you'll go down to the river be sure you will find me:

the river runs free like me.

If you can feel the wind's blowing, feels like a careful touch.

If you can feel the wind's blowing, you better stop think to much.

stop missing me, feel me.

Cause that's me, close your eyes and see,

the moments that we've been together.

Don't cry, there is no need to cry,

someday our souls will fly with the spirit in the sky.

If you can hear someone's talking, but there is no one around,

If you can hear someone's talking, don't follow that sound:

there's nothing to see, hear me.

Cause that's me, close your eyes and see,

the moments that we've been together.

Don't cry, there is no need to cry,

someday our souls will fly with the spirit in the sky.
